

CE Online System Requirements

Operating system

Recommended: Win 7, Mac OSX 10.7+

Mobile devices: At present, due to poor performance of the My Moodle app, we recommend that on a mobile device you log in using a normal web browser. This is particularly important if you are completing an assessment or activity that has a grading component.

Internet speed

Use a broadband connection (256 Kbit/sec or faster) — this will ensure that you can view videos and online presentations — through USB wireless modem, ADSL, T1/T2, fibre optic or cable. Dial-up access will be significantly slower, and we do not recommend it for using Moodle.

Internet browsers

Compatible browsers include:

- Google Chrome 30 or later
- Mozilla Firefox 15 or later—a free download is available from the [Firefox](#) site.
- Safari 6 or later
- MS Internet Explorer 9.0 or later—a download is available from [Internet Explorer](#) site.

Note: Add-ons and toolbars can affect any browser's performance.

Settings

We recommend that the following be enabled:

- Cookies
- Pop-ups (in both Internet browser and security software)
- Javascript

Plug-ins and Resources

We recommend that you use the latest version of [Adobe Flash Player](#) and the latest version of [Adobe Acrobat Reader](#).
